

SAMUEL ADENIRAN

GRAPHIC DESIGNER, WEB DEVELOPER

SUMMARY

I am a 300-level law student at the University of Ibadan with a strong passion for integrating technology into the practice of law. As a **frontend web developer**, I design and build responsive, user-friendly websites using HTML, CSS, JavaScript, React, and CSS frameworks like Tailwind. Additionally, I am a **graphic designer**, creating visually captivating content such as logos, posters, and marketing materials that help brands and organizations communicate their message effectively.

I am of the Christian faith, which shapes my creativity, work ethic, and dedication to service. Outside of work, I enjoy swimming, acting in stage productions as a member of *Lawliwood* (a drama society), writing poetry, and supporting Manchester United.

PROJECTS

Gista

Nigeria 2024 - Present

Gista is a comprehensive campaign management platform designed to empower political campaigns and organizations. It streamlines campaign planning, coordination, and communication, providing tools to manage resources effectively, track progress, and engage with stakeholders. As a **Front-end Developer** on the project, I focus on creating a seamless user experience through responsive and visually appealing interfaces.
